Information for authors

#### Submission Guide

Before making a submission, please make sure that you have included all necessary details.

#### Please make sure you have provided:

 Name of the author designated as the corresponding author, along with their: E-mail address Full postal address Telephone numbers

Keywords

- Ensure that your manuscript is in LaTeX format. If you are unfamiliar with LaTeX, you may submit your manuscript in PDF or in Word format. However, once accepted you will be asked to provide the final revision of your paper in LaTeX.
- Ensure that graphics are high-resolution.
- · Be sure all necessary files have been uploaded/attached. All figure captions are available.
- · All tables are present (including title, description, footnotes).
- Ensure your manuscript has been 'spell checked'
- Verify that permission has been obtained for use of copyrighted material from other sources (including the Web)

· Check that references are in the correct format:

Responsibility for the accuracy of bibliographic citations lies entirely with the authors.

Citations in the text: Please ensure that every reference cited in the text is also present in the reference list (and vice versa). Any references cited in the abstract must be given in full.

Citing and listing of web references. As a minimum, the full URL should be given. Any further information, if known (author names, dates, reference to a source publication, etc.), should also be given. Web references can be listed separately (e.g., after the reference list) under a different heading if desired, or can be included in the reference list.

Text: Indicate references by number(s) in square brackets in line with the text. The actual authors can be referred to, but the reference number(s) must always be given.

Example: "....as demonstrated [3,6]. Barnaby and Jones [8] obtains a different result...."

*List:* Number the references (numbers in square brackets) in the list in the order in which they appear in the text.

Examples: Reference to a journal publication:

[1] J. van der Geer, J.A.J. Hanraads, R.A. Lupton, The art of writing a scientific article, J. Sci. Commun. 163 (2000) 51-59.

Reference to a book:

[2] W. Strunk Jr., E.B. White, The Elements of Style, third ed., Macmillan, New York, 1979.

Reference to a chapter in an edited book:

[3] G.R. Mettam, L.B. Adams, How to prepare an electronic version of your article, in: B.S. Jones, R.Z. Smith (Eds.), Introduction to the Electronic Age, E-Publishing Inc., New York, 1999, pp. 281-304.
